7. Read the following text then answer the questions below. (8 Marks)

Today you can find fast food restaurants in almost every big city. But why do people prefer fast food restaurants? Two things make fast food restaurants popular. Speed and price. People’s time is valuable. They do not want to waste a lot of time eating or preparing food. The service is fast, so they can order what they want, eat it and be finished in less than 15 minutes. And prices are cheap. Because of the large number of meals sold every day in fast food restaurants, costs are kept low. Another thing people like is that they can be sure what the food will taste in a fast food restaurant. The major fast food companies like McDonald make sure that a hamburger sold in Boston will taste exactly the same as one in New York and not different from one bought in Bangkok or Jakarta.
