7. Read the following text then answer the questions below. (8 Marks)
1. Computers let you communicate very quickly by e-mail or using the internet. They can do some jobs very quickly, for example sending out large numbers of letters or bills. You can access any information you need using a modem. A modem is piece of electronic equipment that allows information to be sent from one computer to another. Children enjoy using computers which make learning more exciting.

5. One the other hand, computers have a lot of disadvantages. Many people don't like using computers, and would prefer to deal with a person instead. Computers can get viruses. A virus is a set of instructions secretly put into a computer that destroys the information stored in it and stops it from working normally. Some children spend too much time playing computer games, which can be very violent.

A. Questions.
1. What is a modem?

2. What is a virus?

3. Why are computers helpful to education?

4. Of what harm is the computer for children?

B. Decide whether each of the following statements is True or False.
5. a. Without a modem computers could exchange information. (…………..)
   b. Viruses are never useful to computers. (…………..)
