Prelab 1

Try to give me a short overview as simple as possible about:

1- **Sensors**
   - Overview about its mission.
   - Its circuits.
   - Its applications.
   - How can help us in our course.

2- **Drivers**
   - Overview about its mission.

3- **Dc Motor**
   - Overview about its mission.
   - Its applications.

4- **Suggestion projects for our lab**
